Nightjohn movie trailer

These days, trailers are as expected as the actual films they're announcing. For this week we have the latest trailer from DC's next superhero, our first extended look at the new season of House of Cards and much more. That's all we've seen this week. 1. Whiskey Tango Foxtrot Tina Fey after a 30 Rock career continues to roll forward. Whiskey Tango Foxtrot talks about a journalist who was in the army in Afghanistan as she sails through the troubled waters of war and with his wife. Margot Robbie (Suicide Squad) with fey stars, making for a surprisingly cohesive comedy duo. The latest trailer gives us a good look at the chemistry of the two actors on screen and the solid conclusion of the all-entiasant story of the film. 2. Batman v Superman: Dawn of the Dc rights has just got its movie franchise off the ground, kicking things this March with Batman v Superman: Dawn of Justice. The film casts a steel man against a dark knight, as the gladiator matches to finish all gladiators. The latest trailer was widely criticized for broadcasting what looked like the whole movie. For the ultimate teaser though, we got more action and a less spoiled story, it led us to wonder why it wasn't the one Warner released in the first place. 3. House of Cards, Season 4 house of cards is a show that has seen its fair share up and down. The first two seasons were masterful courses of dramatic storytelling, stunned by a disappointing third that left many fans scratching their heads. Focusing more on Frank Underwood's marital issues than on the political intrigue that originally made it great was the show's subvervous effort that caught the bar high in its early years. Season 4 is a welcome return to form based on what we see in the first trailer, so we hope that this can be dragged out of that promise. 4. High Rise Star Tom Hiddleston is the one who seems to stand up with every movie he's attached to. High Rise is his latest project, in the eyes of a wide shut-esque thriller about a living community gone wrong. In the trailer there is a picture of a film that is equal parts social satire and horror, which combines all sorts of different tones into a single story. 5. Broad City, Season 3 In the last few years, Comedy Central has become zero for innovative, genre-bending satire. Shows such as Key and Peele and Inside Amy Schumer have often been seen as some of the best comedic on TV, as well as being an argument for Broad City. Season 3 will kick off next week, and the new trailer is tinged to all the kind of craziness we've been expecting from Ilana Glazer and Abbi Jacobson.
